## PRESIDENT PLAYS SENATORS.

(Continued from Page 1.)

any legislation of the session impossible, at a time when the need for it was most pressing and most evident. The bill which would have permitted such combinations of capital and of organization in the export and import trade of the country as the circumstances of international competition have made imperative a bill which the business judgment of the whole country approved and demanded—has failed.

**Other Legislation Blocked.**  
"The opposition of one or two senators has made it impossible to increase the membership of the Interstate Commerce Commission or to give it the altered organization necessary for its efficiency. The conservation bill, which should have released for immediate use the mineral resources which are still locked up in the public lands, now that their release is more imperatively necessary than ever, and the bill which would have made the unused water-power of the country immediately available for industry, have both failed, though they have been under consideration throughout the sessions of two congresses and have been twice passed by the house of representatives.

"The appropriations for the army have failed, along with the appropriations for the civil establishment of the government, the appropriations for the Military Academy at West Point, and the general deficiency bill. It has proved impossible to extend the powers of the shipping board to meet the special needs of the new situation into which our commerce has been forced or to increase the gold reserve of our National banking system to meet the unusual circumstances of the existing financial situation.

**Senate Remains Paralyzed.**

"It would not cure the difficulty to call the 65th congress in extraordinary session. The paralysis of the senate would remain. The purpose and the spirit of action are not lacking now. The congress is more definitely united in thought and purpose at this moment, I venture to say, than it has been within the memory of man now in its membership. There is not only the most united patriotic purpose but the objects members have in view are perfectly clear and definite. But the senate cannot act unless its leaders can obtain unanimous consent. Its majority is powerless, helpless. In the midst of a crisis, an extraordinary crisis, when only definite and decided action can make the nation safe or shield it from war itself by the aggression of others, action is impossible.

"Although as a matter of fact the nation and the representatives of the nation stand back of the executive with unprecedented unanimity and spirit, the impression made abroad will, of course, be that it is not so, and that other governments may act as they please without fear that this government can do anything at all. We cannot explain. The explanation is incredible.

**Only One Remedy Presented.**

"The remedy? The United States is the only legislative body in the world that cannot act when its majority is ready for action. A little group of willful men, representing no opinion but their own, have rendered the great government of the United States helpless and contemptible.

"The remedy? There is, but one remedy. That is the rule of the senate shall be so altered that it can act. The country can be relied upon to draw the moral. I believe that the senate can be called upon to supply the means of action and save the country from disaster."

At the same time the president authorized the further statement, that what rendered the situation even more grave than it had been supposed that it was the discovery that while the president under his general constitutional powers could do much of what he had asked congress to empower him to do, it has been found that there were certain old statutes as yet unreported which raised insuperable practical obstacles and virtually nullified his power.

**Old Law Stands in Way.**  
The old law referred to by the president was passed by congress in 1819 and referred to the resistance of American merchantmen against the attack on privateers and pirates, but excluded from vessels which might be so attacked "a public armed vessel of a nation in amity with the United States."

Technically Germany is not at war with the United States and submarines are "public armed vessels" of Germany.

The president's statement followed a conference at the White House between Mr. Wilson, Secretary McAdoo, Postmaster-General Burleson, Colonel E. M. House, Vance O. McCormick and Secretary Tamm.

## WASTE PAPER DAY BRINGS \$6000 IN SPOKANERECENTLY

SPOKANE, Wash., March 5.—Five thousand persons became thrifty and received \$6,000 for their trouble on Spokane's first waste paper day, held recently.

Two hundred and fifty tons of old paper were taken from homes, stores and offices to depots located in various parts of the city. Fancy prices offered by collectors caused thousands of householders to explore closets and garrets for the precious waste. Spokane citizens in touring cars rubbed elbows with small boys with sleds. At one time 25 automobiles, trucks and transfer wagons were lined up on Boone avenue awaiting their turn to reach the scales for weighing and unloading.

Waste paper day was staged by D. S. Hannon at the request of Spokane Fire Marshal Eugene Battles.

"When we agreed to take charge of waste paper day at the request of the fire marshal we did not expect to pay more than \$15 a ton, which is the fair commercial value of waste paper at this time," states Mr. Hannon. "But competitive conditions forced the price up until we paid \$25 a ton for paper delivered at our warehouses and \$20 a ton, or all hundred, where it was taken to the curbing stations. For scrap paper, delivered in sacks, we paid \$8 a ton."

## FARMER BURNS AND AL SOMMERS TO BOX

If the dope isn't entirely incorrect, the boxing fans of Echo will see a rattling good scrap next Friday night when Al Sommers, Pacific Coast middleweight champion, faces Farmer Burns, the pride of Echo. The two husky fighters are scheduled to travel twelve rounds. Burns works out daily at Echo and those who have seen the farmer in his training predict that he will stow away the elusive Sommers when they meet.

Sommers, who is at present in Wallace, Idaho, where he meets Mexican Jack Torres Tuesday night, will arrive here Wednesday night. He will do a little work at the local gym Thursday and give the fans in this city who have never seen him in action, a chance to give him the once over.

The Portland boy has a wicked left jab which he uses with lightning-like speed to either the face or body. Sommers, though only 19 years of age, has faced the best middleweights on the coast and as yet has to lose a verdict to any one. This is a remarkable record when you stop to think that the Portland youngster has faced such fast stars as Fighting Billy Murray, Billy Weeks, Canadian middleweight champion, Frank Farmer, the Tacoma light heavyweight who has fought Joe Bonds five draws. Besides these stars Sommers has defeated every middleweight that has ever stopped in Portland in the past two years.

**HAS HUSBAND PLACED UNDER BONDS TO STAY IN FLORIDA.**

**MRS. JAMES ROOSEVELT.**  
Mrs. James Roosevelt, the wife of "Jimmy" Roosevelt, cousin of Col. Roosevelt, has just had her husband placed under heavy bond to keep him in Florida pending the result of her divorce proceedings. Before her marriage to Roosevelt in 1900, when "Jimmy" was a Harvard senior, she was Sadie Moswinger, known as "Dutch Sadie." At this time, it was said, Roosevelt was disinherited by his family. Mrs. Roosevelt, it is believed, is a resident of Daytona, Fla.
